### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The primary reason for allowance is that as applicants have argued (applicants' response submitted January 22, 2004, page 9, lines 4 to 10) the primary reference, Imaizumi, used in all of the prior art rejections, teaches a process comprising the sequence of steps of :

sintering,

cutting to shape the sintered body,

solution treating the machined/shaped object in an atmosphere containing oxygen and

aging the solution treated body;

while the instant claims are directed to a process comprising the sequence of steps of:

sintering,

aging,

cutting and/or polishing the sintered body and

solution treating the machined/shaped object in an atmosphere containing oxygen.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
